INNOVATION ON THE WATER

For over 10 years Walker Bay has set the standard for small boats by combining the perfect balance of performance, aesthetics and engineering. Using high-pressure injection molding as the optimum manufacturing process, Walker Bay has succeeded in producing truly versatile, exceptionally crafted boats that are made to last.

Walker Bay's mission is simple; to bring the pleasure of boating to more people around the world. Working with an international team of naval architects, water sports professionals, designers, and leaders in the world of precision injection molding, Walker Bay has succeeded in creating a line of award winning, top quality boats that are durable, lightweight, versatile and affordable enough for everyone to enjoy.

Recognized for ingenuity, Walker Bay has won over half a dozen awards including the 2006 National Marine Manufacturer's Association (NMMA) Innovation Award for boating innovation, the Montell Innovation Award for breakthrough technology in the plastics industry, and the Dutch HISWA Innovation Award for boating innovation & design.

GENESIS

HULL

EXPERIENCE THE FUTURE OF BOATBUILDING

Genesis RIBs are manufactured using state-of-the-art injection molds, which enable the highest level of finishing and accuracy, providing detail & features that no other manufacturing process can achieve. The result is a superior one-piece hull that is lightweight and extremely durable with no seams or joints to crack or leak. Custom-engineered UV resistant resins are used to create a long lasting boat that is superior to other materials.

HIMC HULL

- 10 Year Warranty
- Impact resistant
- Scratches are less apparent
- Scratches won't affect hull integrity
- Forgiving & comfortable ride
- Lightweight material
- Exceptional value

FIBERGLASS HULL

- 1-5 Year Warranty
- Impact can puncture the hull
- Scratches cause delamination & water gain
- Bumpy & uncomfortable ride
- Heavy material
- Moderate value

ALUMINUM HULL

- 1-5 Year Warranty
- Impact can dent the hull
- Scratches are apparent & allow for corrosion
- Jarring & uncomfortable ride
- Lightweight material
- Expensive

ENVIRONMENTALLY FRIENDLY

While traditional fiberglass has a polluting manufacturing process, the injection molding process is entirely environmentally friendly and the materials are recyclable. The result is a durable and virtually maintenance free boat, one you can feel good about owning.

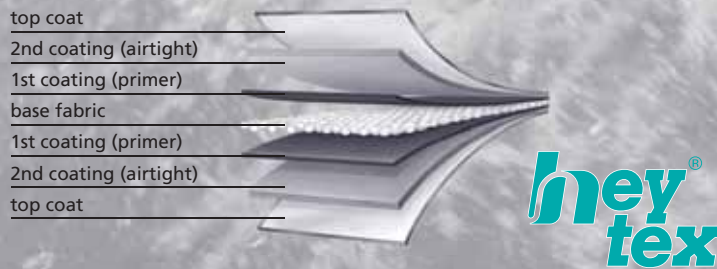

FABRIC OPTIONS

Walker Bay is one of the only inflatable manufacturers in the world to offer a choice of fabric options and accepts only the highest quality fabrics. For 2011, Walker Bay has adopted Heytex as the supplier of choice for PVC, due to its exceptional durability and longevity. **PVC tubes are grey in color and Hypalon tubes are white.**

We take extra care in our construction to create a line of boats you can depend on. Please contact your local dealer to determine local availability of either fabric model.

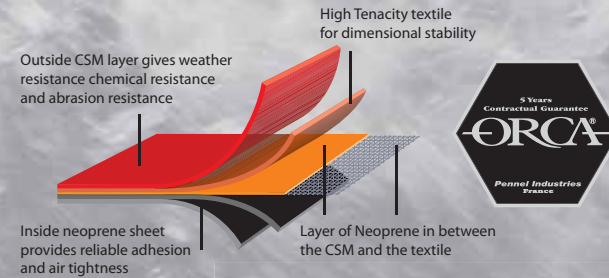

FABRIC

PVC FABRIC

- Best suited to a temperate climate with low to moderate sunshine.
- Seasonal usage and boat is stored and covered during the off-season.
- The boat's tubes will be protected by a boat cover when not in use.

HYPALON FABRIC

- Best suited to tropical climates where UV exposure is high.
- The boat is used for year-round travel, and is rarely stored.
- The boat may be without a protective boat cover when not in use.

REPLACEABLE TUBE DESIGN

With a hull that will last virtually forever, Genesis is the first RIB of its size which offers you the option to replace your tube. The hard-wearing Genesis hull features a removable tube design, offering ease of maintenance or future tube replacement. A boat for life.

SUPERIOR SPACE & PERFORMANCE IN A CONSOLE RIB

The feature loaded Genesis Console RIB combines the award winning Genesis HIMC Hull with a fully integrated injection molded Center Console unit. Together they create the ultimate small RIB, boasting ample storage space, superior comfort and exceptional performance. The Genesis console can be purchased as a complete boat or as a modular retrofit system for the Genesis 340 and 310 models. Available in Orca® Hypalon® or PVC fabric, the Genesis Console RIB is truly the first of its kind.

CONSOLE FTD

GENESIS DELUXE CONSOLE RIB

The Genesis Console FTD is everything you want in a small console RIB; a perfect mix of comfort, space, and performance packaged with deluxe features normally found on a RIB twice the price. Practical innovation and complete integration make this runabout an incredible value.

FEATURES

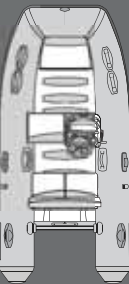

- Injection-Molded Console Body with battery recess.
- Hinged Backrest, rear, mid and bow seat cushions.
- Quick-Clip™ system for fast and easy installation.
- Extra large vented under-seat storage compartment.
- 2 water resistant storage compartments with ventilation.
- Open Dashboard for Flexible Dial Setup.
- Deluxe Steering Wheel Included.
- Polycarbonate Windscreen.
- Stainless Steel Handrail.

Available in
Orca® Hypalon®
or 1100 Decitex PVC.
(Console 340 FTD Model shown)

Customized Wiring Harness (Optional)
PVC tubes are grey in colour and Hypalon tubes are white.

GENESIS RIB

SIMPLY SMART™

As with every Walker Bay boat, the true beauty is in the details. Every small point has been considered in the design of the Genesis Deluxe RIB and it is all packaged together in a revolutionary construction, which is more durable than anything else on the water.

Deluxe Mid-Seat clips in and out.

Non-skid removable floor with drainage slots

Injection molded hull provides increased durability and longevity.

PERFORMANCE

SMOOTH RIDE

- V-Hull cuts through rough chop.
- High Impact Marine Composite Hull absorbs vibration for a smoother ride.
- Trim Tabs level boat at planing speeds for a more solid, stable ride.

EARLY PLANING

- Trim Tabs direct water flow downwards at the stern, which helps facilitate earlier planing.
- V-Lift™ directs water flow higher on the engine propeller resulting in more lift.
- Aluminum Transom is stiffer and lighter than fiberglass transferring more energy from the motor into forward thrust.

SUPERIOR HANDLING

- V-Lift™ reduces cavitation while cornering at high speeds by directing water higher on the engine propeller.
- Dynamic Hull Channels direct water flow to improve cornering performance at high speeds.

GENESIS FTD

The Genesis FTD combines a hull that is durable and easy to maintain with superior features and plenty of space for passengers and gear. A wide variety of added features put this boat in a class all its own.

FEATURES

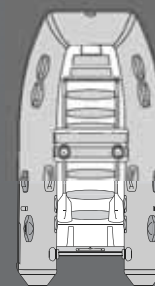

- One Piece Composite (HIMC) Hull.
- Removable Floor with Non-Skid Pads & Drainage Slots.
- Wide Bow Area comes with Storage Locker.
- Trim Tabs house 2 Wheels in the Hull™.
- Extruded Aluminum Folding Transom.
- Deluxe Mid-Seat with Storage Compartment, Removable Tray, & Cup Holders.

Available in
Orca® Hypalon®
or 1100 Decitex PVC.
(340 FTD Model shown)

Console upgrade available.
PVC tubes are grey in color and Hypalon tubes are white.

GENESIS FTL

For those most concerned about weight and portability, our lightest RIB has many of the same features as the FTD in a hull that folds and stores easily. Quick to plane, super durable and easy to store, the FTL also comes with a cup holder and a small storage compartment in the seat for valuables.

FEATURES

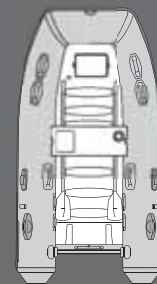

- One Piece Composite (HIMC) Hull.
- Removable Floor with Drainage Slots.
- Trim Tabs house 2 Wheels in the Hull™.
- Extruded Aluminum Folding Transom.
- Wide Bow Area with Recess for Fuel Tank.
- Seat with integrated Cup Holder & Storage Compartment.

PARTS

COMMON REPLACEMENT PARTS

All components on a Walker Bay Genesis are replaceable. Below are some of the more common replacement parts. For a complete list, contact your local dealer or visit inflatableboatparts.com

Drain Plug Assembly – 3000030124

The Genesis Drain plug provides quick and easy drainage from the keel bottom.

Oar Hinge – 25011

Built to provide added leverage. Comes with molded assembly, pins, springs and clip.

Keel Strip – 16558

Built to take the brunt of any direct force beneath your inflatable.

Floor Pads – 16594

Provide additional padded comfort for extended trips.

2-Piece Oars – 929062

Stainless steel with molded handles. For Genesis Light & Deluxe.

Storage Tray – 16589

Fits in both the bow locker and mid-seat compartment of the Genesis Deluxe.

Seat Clips – 16541

Attachment clips which snap the center seat onto the tubes.

Halkey Roberts Valve – 1000040007

Quick-release valve stem for fast deflation.

WARRANTY

PROTECT YOUR INVESTMENT

Walker Bay boat covers are made of a high quality UV-resistant fabric which provides protection from both the elements and potential abrasion. While our PVC fabric is purchased from the highest quality manufacturers in Europe, prolonged exposure to the sun can cause the tubes to degrade over time. To prevent this ask your local dealer for a boat cover at the time of purchase. You'll be very glad you did.

QUALITY YOU CAN DEPEND ON

Walker Bay stands by its product with a 10 year Hull Warranty, a 5 year 1100 Decitex Polymer and 10 year Hypalon® fabric warranty.
